Library was constructed by Life Technologies, a division of
Invitrogen. This sequence belongs to sequence cluster 10299.f,
it belongs to a clone representative of this cluster. For more
information about this cluster and the virtual cDNA, see
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           1 (bases 1 to 1201)

Library was constructed by Life Technologies, a division of
Invitrogen. This sequence belongs to sequence cluster 10299.f, and
it belongs to a clone representative of this cluster. For more
information about this cluster and the virtual cDNA, see

Library was constructed by Life Technologies, a division of
Invitrogen. This sequence belongs to sequence cluster 10299.f, and
it belongs to a clone representative of this cluster. For more
information about this cluster and the virtual cDNA, see
